What do you like best about this course?

These comments are intended for all instructors.

Comments
The assignments weren't too demanding, but really helpful to building my knowledge. I like that the professor did study groups before exams to go over the material, not many professors would do that. I couldn't make any virtual sessions, but they were recording and posted within the hour.

I like how easy it was to keep up with the course and it felt more stress free compared to when I took the course last semester.
